Saturday, March 7, 1885,

A THRILLING EXPERIENCE! Remarkable Statement of Personal Dauger and Providential Escape.

The following story-which is attracting wide attention from the press -is so remarkable that we cannot excuse ourselves if we do not lay it before our readers, even though its length would ordinarily preclude its admission to our limited space.

To the Editor Rochester (N. Y.) Democrat: Sir, On the first day of June, 1881, I lay at my residence in this city surrounded by my friends. and waiting for death. Heaven only knows the agony I then endured, for words can never describe it. And yet, if a few years previously any one had told me that I was to be brought so low, and by so terrible a disease, I should have scoffed at the idea. I had always been uncommonly strong and healthy, and weighed over 200 pounds and bardly knew, in my own experience, what pain or sickness were, Very many people who will read this statement realize at times that they are unusually tired and cannot account for it. They feel dull pains in various parts of the body and do not understand it. Or they are exceedingly hangry one day and entirely without appetite the next. This was and fastens itself upon the constitujust the way I felt when the relentless tion before the victim is aware of it. malady which had fastened itself upon It is nearly as hereditary as consumpme first began. Still I thought nothing of it; that probably I had taken a cold which would soon pass away. Shortly after this I noticed a heavy, and at times neuralgic, pain in one side of my head, but as it would come one day and be gone the next, I paid little attention to it. Then my stomach would get out of order and my food often failed to digest, causing at times great inconvenience. Yet, even by bitter experience what he says, 1 as a physician, I did not think that these things meant anything serious. I fancied I was suffering from malaria symptoms of kidney difficulty. Cerand doctored myself accordingly. But tain agony and probable death will be I got no better. I next noticed a pe- the sure result of such neglect, and no culiar color about the fluids I was one can afford to hazard such chances. passing also that there were large quantities one day and very little the statement as this, coming from mr, should have been so blind I cannot understand.

I consulted the best medical skill in the land. I visited all the famed mineral springs in America and traveled grew worse. No two physicians agreed as to my malady. One said I was al consequences. troubled with spinal irritation; another, dyspepsia; another, heart disease; another, general debility; another congestion of the base of the brain; and so on through a long list and San Antonius, Sicily, engaged in My condition had really become pitia- the combatants were gloved and padble. The slight symptoms I at first ded and otherwise protected from serible and constant disorders. My small peach containg blood was at-130 pounds. My life was a burden to This pouch was the point of attack myself and friends. I could retain no and when pierced by the knife "the by injections. I was a living mass of small and wiry, the Sicilian big and pain. My pulse was uncontrollable, fierce-looking. Five rounds of five floor and clutched the carpet, and in which the Sicilian was twice dis- We are now prepared to buy and seil the or no effect in deadening the pain. the knife of the Dane. The sport was For six day, and night I had the death- new to the two hundred and odd spec My water was filled with tube-casts great glee. and albumen. I was struggling with Bright's Disease of the kidneys in its last stages!

While suffering thus I received a call from my pastor, the Rev. Dr. their mother's owner until that time. Foote, at that time rector of St. Paul's A traveler says there "never was a that it was our last interview, but in the course of cot versation Dr. Foote detailed to me the many remarkable cruelty than they are to-day in the cures of cases like my own which bad The punishments practiced are simply come under his observation, by means barbarous." There are still 1,200,000 of a remedy, which he urged me to slaves in the empire. try. As a practicing physician and a graduate of the schools, I derided the The roller skating craze beats anyidea of any medicine outside the reg- thing that the world has ever known. ular channels being in the least bene- The theater managers are beginning ficial. So solicitous, however, was Dr. to cut their prices, and complain of Foote, that I finally promised I would hard times, but the latest kick comes waive my prejudice. I began its use from a minister at Jamaica, L. I. on the first day of June, 1881, and Since the roller rink started there, he took it according to directions. At has been obliged to preach to empty first it sickened me; but this I thought pows, and he has had the collection was a good sign for one in my debili- plate decorated with crape, and put tated condition. I continued to take on the mantle for bric-a-brac. it; the sickening sensation departed and I was finally able to retain food upon my stomach. In a few days I Paris to claim the body of a friend renoticed a decided change for the better, as also did my wife and friends. You any means of identifying the My biccoughs ceased and I experienced less pain than formerly. I was so is easy enough to tell. He was deaf." rejoiced at this improved condition

this remedy for the good of humanity, wherever and whenever I had an or portunity, and this letter is in falfillment of that vow. My improvement was constant from that time, and in less than three months I had gained 26 pounds in flesh, became entirely free from pain and I believe I owe my life and present condition wholly to Warner's Safe Cure, the remedy which

Since my recovery I have thoroughly re-investigated the subject of kidney difficulties and Bright's disease, and the truths developed are astounding. I therefore state, deliberately, and as a physician, "that I believe more than one-half of the deaths which occur in America are caused by Bright's disase of the kidneys." This may sound like a rash statement, but I am fully prepared to verify it. Bright's disease has no distinctive symptoms of its own, (indeed, it often develops without any pain whatever in the kidneys or their vicinity.) but has the symptoms of nearly every complaint. Hundreds of people die daily, whose burials are authorized by a physician's certificate as occurring from "Heart Disease," "Apoplexy," "Paralysis," "Spinal Complaint,""Rhoumatism,""Pneumonie," and other common complaints. when in reality it is from Bright's disease of the kidneys. Few physicians, and fewer people, realize the extent of this disease or its dangerous and insidious nature. It steals into the system like a thief, manifests its presence if at all by the commonest symptoms tion, quite as common and fully as fatal. Entire families, inheriting it from their ancestors, have died, and yet none of the number knew or realized the mysterious power which was removing them. Instead of common symptoms it often shows none whatever, but brings death suddenly, from convulsions, apoplexy or heart disease. As one who has suffered, and knows implore every one who reads these words not to neglect the slightest

I am aware that such an unqualified next, and that a persistent froth and known as I am throughout the entire souns appeared upon the surface, and land as a practitioner and lecturer, a sediment settled. And yes I did not will ar use the surprise and possible realize my danger, for, indeed, seeing ani nosity of the medical profession these symptoms continually, I finally and astonish all with whom I am acbecame accustomed to them, and my suspicion was wholly disarmed by the fact that I had no pain in the affected am prepared to produce and truths am prepared to produce and truths organs or in their vicinity. Why 1 which I can substantiate to the letter The welfare of those who may possibly be sufferers such as I was, is an ample inducement for me to take the step I have, and if I can successfully rather than musty goods on shelves. warn others from the dangerous path from Maine to California. Still I in which I once walked, I am willing to endure all professional and person-
